

Implementation of digital interventions for depression worldwide

Our questions:

- What are the most important barriers to implementing digital interventions for depression?
- How the perspectives of health care practitioners from countries with different income level differ?

The study team:

Anna-Lena Leimberger (M.Sc.)

Dr. Hanna Reich de Paredes

Depression Research Centre of the German Depression Foundation

Participation requirements:

- ✓ Working as a general practitioner, family doctor or psychologist
- ✓ Care of patients/clients with psychological problems
- ✓ At least 21 years old

Your participation options:

- Online survey (in German, English or Spanish)

and / or

- Interview via Video-/Audioconference (in German, English, Spanish, Italian or Portugese)
